C • Java

Education

2014 - 2016 **Management Information Systems**

Bilecik University, Turkey

2016 - 2019 **Management Information Systems-horizontal transition**

University, Turkey

Niğantaşı

Who am I

I've been a test engineer for about 8 months. I believe continuous development by the way i am active person. I like ask questions to experienced peoples and i go to "Python Saati" and "QA Istanbul" regularly. I want to learn and practice all testing methods. I am waiting companies that care about software testing.

Experience

December 2017

- July 2018

Entry Level Test Engineer

Projet Yazılım

- This company is my first experience and I was working 8 months. I am used to Jira, Confluence and we were doing scrum. I used Cypress with JavaScript and I completed UI tests in project on the other hand I used Python's unittest library and I wrote a little unit tests. Odoo is a ERP software and Projet is a project company by the way Odoo's partner in Turkey.

Social

I was working in HM at summer holiday. I was working in local radio channel for university students and form program impromptu/comedy. I go to swimming in my social life, read the code and go to the software meetups.
